

Positive Discipline

In the Classroom

A training designed for teachers, administrators, counselors, paraprofessionals, and youth development program providers

Lisa Herold, CPDT
Saint Clement School, Chicago, IL
Thursday & Friday, August 5, 6, 2021
from 9:00 a.m. to 5:00 p.m.

As we rebuild our learning communities and plan for the 2021-2022 school year, social-emotional skills are more important than ever before. Positive Discipline teaches self-awareness, self-management, social awareness, responsible decision-making and relationship skills. When students excel in these competencies, academic achievement, and positive social behavior increase, reducing conduct problems and emotional distress.

Attendees will earn recognition as Certified Positive Discipline Classroom Educators and will learn to:

- Develop a large teaching toolbox of kind and firm discipline approaches for grades PK-12.
- Establish explicit classroom structures and procedures.
- Create an equitable classroom community based on mutual respect.
- Understand the belief behind the students' misbehavior and how to use encouragement to motivate positive change.
- Facilitate effective class meetings teaching social skills and problem solving
- Learn Positive Discipline/Adlerian psychology for use in the classroom and community.
